Note from the Director:

2024 was a noteworthy year, since the Library kick-started a building project to expand the physical space of the facility. Our community deserves a right-sized library that can offer more of what we already do and expand our services and capabilities.

Our friends group, the Advocates for SPL, have been busy campaigning and raising funds to support this project. Be on the lookout for more information about the project in the next few months and remember to vote on this proposition August 12, 2025.
